No. 3045.
Enc: One Proposition statement. Submitted thro' the Comptroller.

Office of the Superintendent, Government Printing in Mysore, Bangalore, Dated, the 1st March 1924

D 2521

From

B. PUTTAIYA, ESQ., B. A.,
Superintendent, Government Printing in Mysore,
Bangalore.

REV. SEC'T. Mar 1924

60 P 37

To

K. MATTHAN, ESQ., B. A.,
Chief Secretary to the Government of
His Highness the Maharaja of Mysore,
Bangalore.

Sir,

I have the honor to submit herewith a Proposition Statement showing the present and the proposed scales of the permanent establishment of the Government Branch Press at Mysore and to state as follows:--

The primary object of proposing the revision of the scale is to set right certain anamolies that have crept in owing to certain appointments and promotions having been effected in the post irrespective of the suitability of the candidate for the work he was appointed or promoted. To give a few instances, (1) a compositor has been drawing the salary of a machine minder but is doing compositor's work to the detriment of a man of the Machine Branch. (2) The man who draws the Gate-keeper's salary is working as a machine minder. (3) The man who draws night watchman's pay is a compositor.

There are also a few other anamolies in the existing scale which require to be rectified while a necessity has

8

arisen owing to the increase of work and the introduction of special machinery for the creation of separate posts to be do these special works efficiently. For example, (1) the machine and binding foremen gets Rs: 30/- whereas the first binder gets Rs: 35/- which is more than the Foreman's pay; (2) the menial servants get Rs: 11/- each, whereas the last binder's place which is a superior appointment requiring technical skill carries only Rs: 9/-, (3) the Stores work has considerably increased and goods valued at about Rs: 50,000/- pass through the office which therefore needs the services of a separate Store-keeper; (4) a Type casting machine has been installed for which a separate appointment of a type caster is required as it will not do to put a compositor, or a printer, or a binder on the machine.

It will thus be seen that, there is a necessity for a re-organization of the establishment and for putting the scales of pay on a level that will facilitate promotions in the respective branches and limit them to those branches only, so that the workmen may feel that they get their legitimate dues for the work they are really fit for.

In order therefore to systematise appointments and promotions and create efficiency and contentment, I have taken advantage of a vacancy recently created by the promotion of Mr. M. Singriya, Foreman On Rs: 40/- plus 30/-, to the post of Machine Foreman on Rs: 80/- at the Central Press and also another minor vacancy consequent on the transfer of an official to the Central Press, in order to submit the following proposals for the re-organization of the Branch Press. These proposals will not involve any extra cost to Government; neither do they contemplate the absorption of the personal allowance of Mr. Singriya which stands still saved to Government so that

(9

on financial grounds there does not appear to be the slightest objection for effecting the re-organization. As I am anxious to bring out order out of confusion and to promote efficiency and contentment, I am submitting these proposals for the gracious approval and favourable orders of Government. The Assistant Superintendent of the Branch Press, is at one with me in this respect and with his entire concurrence and upon his recommendation, I am forwarding this revision scheme. I shall now proceed to explain the salient features, Branch by Branch, promising that the salaries proposed are not arbitrary but have been fixed with reference to the men to whom they are intended to apply, taking into account their present pay, their suitability to the post and their eligibility for promotion:--

(1) Supervising Branch.- The first Foreman's pay is fixed at Rs: 40/- only, the personal allowance of Rs: 30/- drawn by the previous incumbent being shown as savings to Government. Since the highest pay of a compositor is to be Rs: 30/- the pay of the second Foreman is fixed at Rs: 35/-.

(2) Office Branch.- As two posts on Rs: 30/- each, are deemed unnecessary, a post on Rs: 15/- is proposed in lieu of the one on Rs: 30/- the balance of Rs: 15/- being shown as decrease.

(3) Proof Branch.- The sanctioned scale of four hands has been found to be inadequate, because if one man is employed solely on passing final proofs for print, two sets of readers cannot be made out of the remaining three men. Hence it is proposed to increase the scale by one more hand. The pay of the final reader is proposed at Rs: 32/- in order that his pay may be slightly higher than that of the senior compositor who

(10)

is drawing Rs: 30/- and slightly lower than that of the second Foreman whose pay is proposed to be Rs: 35/-.

(4) Composing Branch.- The sanctioned scale of 22 hands is proposed to be reduced by one hand in order to increase the number of hands in the Prrof Branch. This reduction will not alter the efficiency of the Branch, as there are are piecework compositors also to do composing work. As most of the men are actually drawing the pay now proposed, the promotions indicated are more apparent than real inasmuch as the new scale is proposed to be adapted to conform to existing conditions as it is impossible to suit the pays now being actually drawn by the compositors to the sanctioned scale.

(5) Machine Branch.- Nine is the sanctioned strength of this Branch but as there are actually 10 men doing machine work, it is proposed to increase the sanctioned scale by one. Slight promotions have been proposed to deserving men.

(6) Binding Branch.- The sanctioned scale for this Branch including the additional binders sanctioned in G. O. No: 62-52-P. &. S. 23-19-4, dated the 11th September 1919, is 12. It is proposed to reduce this number to 9 and to fix the pay which is disproportionately high at present on a par with the Machine Branch by putting down the highest and the lowest salaries at Rs: 25/- and 12/- respectively. In the case of the last appointment which is at present held by one J. Hussain who is drawing Rs: 15/- now, it is proposed to fix it at Rs: 12/- plus 3/- personal allowance untill J. Hussain is promoted, when the next man will start on Rs: 12/- only, and a savings of Rs: 3/- will be effected.

(7) Miscellaneous Branch.- At present men of superior

(11

and menial service are clubbed together in this Branch. I therefore propose to separate this Branch and include in it men of superior service only and create another Branch to be called the Menial Branch wherein menials of inferior service only are incorporated. In the new miscellaneous branch two more superior appointments in addition to that of the Gate-keeper may be added, viz., those of Store-keeper and a Type caster The appointment of a separate official under the designation of a Store-keeper has become a necessity in the Branch Press where owing to great increase of work about Rs: 50,000/- worth of articles pass through the Stores every year. I also propose that the Store-keeper be required to furnish a security of Rs: 200/-. As already submitted above, the appointment of a separate Type caster is most essential as a Type casting machine has been installed in the Branch Press. A separate hand under the proper designation of a Type caster is therefore proposed. The Store-keeper, the Type caster and the Gate-keeper will therefore constitute the miscellaneous branch of the Branch Press.

(8) Menial Branch.- The number of hands will remain as at present and their pay is unaltered. It is proposed to call all the four men peons instead of cycle orderlies and peons as at present.

The Assistant Superintendent proposes that in the case of technical appointments, such as those of Foremen, Proof Readers, Compositors, Machinemen, Binders and Type casters, an efficiency bar for promotions to higher grades should be fixed and a pass in the Technical Examinations in the respective subjects should be insisted on as a qualification for promotion in order to secure efficiency and good work. I agree with him entirely but instead of making the rules too

12

rigid and water-tight, I beg to propose that appointments carrying a higher pay than Rs: 25/- be governed solely by merit and capacity to execute the work for which the promotion is intended and that a passed candidate in the Technical subject concerned be prefered to a non-passed one unless the latter is well experienced and equally capable in his line of work.

The Assistant Superintendent further proposes that the claims of ~~the~~ piecework compositors, machinemen, binders and others should be recognised in filling up vacancies in those Branches in the permanent establishment and that accordingly out of every three vacancies one be given to the pieceworkers provided they are fit. I submit that this is only reasonable as it would be a pity to ignore altogether the pieceworkers who have put in a lot of service and are qualified for the work. This proposal may be kindly approved.

In conclusion, I beg to state that my proposals aim only at evolving order out of chaos, promoting efficiency, ensuring contentment, rewarding the really deserving and creating an incentive to put forth interest ~~on~~ in work and strive for acquiring increased skill. At the same time, they do not contemplate any extra cost to Government. I beg therefore that they may be kindly approved and the re-organization sanctioned at an early date.

I am contemplating to submit a re-organization scheme on the same lines for the Central Press also, where conditions are not dissimilar, on the occurrence of a decent vacancy.

I have the honor to be,
S i r,
Your most obedient servant,

Superintendent,
Government Printing.

Bangalore 22nd April 1924.

D. O. No. 3590

FFS 1-23-7

Ans Card 23/4

My dear Sir,

In reply to your D. O. No: G.13839/P. &. S. 60-23, dated 19th instant, may I inform you that the existing men in the Branch Press can be put immediately in the proposed new scale without the grant of personal allowances to any of them on the score of their present pay being more than the pay in the proposed scale.

In the case of the last class binder whose pay is proposed to be fixed at Rs. 12 plus 3 P. A., the man will be drawing the same pay in the proposed scale as he is now drawing in the existing scale and when he is promoted, his personal allowance also will be a saving to Government as his successor will be given Rs. 12/- only instead of Rs. 15/-.

I solicit the favour of very early orders.

Yours sincerely,

To

C. S. Kuppuswamiengar, Esq.,
Under Secretary to Government,
General & Revenue Secretariat.

Proceedings of the Government of H.H.
the Maharaja of Mysore.

Read:-

G.O.No.G.23856-61/G.P.42-17-21 dated 17th April 1919 passing orders on the development of the Branch Press and fixing the revised establishment required to cope with the work.

2. Letter No.3045 dated 1st March 1924 from the Superintendent, Government Printing submitting proposals for revising the establishment of the Branch Press with a view to set right certain anamolies which have crept in and to suitably adjust the establishment to present needs.

3. Letter No. Books 1684 dated 7th April 1924 from the Comptroller, forwarding duly verified, the proposition statement and stating that the financial effect of the proposals is a net saving of Rs.360/- per annu in the present recurring expenditure.

Order--No. G 14825-6 I.P.dS.60-23-8

Dated Bangalore, the 19th May 1924.

The proposals of the Superintendent which result in a ~~present~~ saving of Rupees 360/- per annum ~~and the proposition further saving of Rupees~~ are sanctioned.

A statement showing the existing and revised establishment is appended.

Chief Secretary to Govt.

To
The Comptr. (through the Finl. Deptt).
